Examiner's Amendment and Reasons for Allowance

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 2, line 2, "rang" has been changed to range in order to correct an obvious typographical error.

REASONS FOR ALLOWANCE

The patents to Light (2,190,267) and Umino et al. (3,935,417) are cited to show prior art welding of copper to steel. The patents to Kohler et al. (2,919,342) and Vagi (3,435,183) are cited to show prior art welding of dissimilar metals using high frequency a.c. current.

The following is an examiner's statement of reasons for allowance: none of the prior art of record teaches or suggests the claimed process for joining a steel to a copper with the steps set forth, particularly the step of applying a copper containing flash layer as set forth in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
